## **PROMUTUAL GROUP TO OFFER CME CREDITS IN CONJUNCTION WITH THE MASSACHUSETTS MEDICAL SOCIETY**

Boston, MA – ProMutual Group, the leading provider of medical malpractice insurance in the Northeast, has entered into an agreement with the Massachusetts Medical Society to provide CME credits to healthcare providers. Credits will be offered through the company’s risk management newsletter, *Perspectives*, which is available online at the Massachusetts Medical Society’s web site ([massmed.org](http://massmed.org)) and also through a link on ProMutual Group’s new Policyholder Web Site.

*Perspectives* is a quarterly publication of ProMutual Group’s Risk Management Department. Each issue explores a specific topic and relates it to risk management implications it may have on a healthcare provider’s practice. Following the newsletter there is an exam in which one AMA PRA category 1 CME credit, appropriate for risk management study, can be earned. There is a fee for each test, although ProMutual Group policyholders and Massachusetts Medical Society members receive a discounted rate.

“We are excited about working with the Massachusetts Medical Society, which allows us to expand the reach of *Perspectives* and offer CME credits online,” said Maureen Mondor, Vice President of Risk Management for ProMutual Group. “With the hectic pace of healthcare today, this is a great way healthcare providers can integrate education into their busy schedules.”

ProMutual Group provides medical professional liability insurance coverage to nearly 16,000 physicians, surgeons and dentists as well as hundreds of hospitals, health centers and clinics. The companies operate in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, Rhode Island and Vermont.
