## **ProMutual Group Launches Web Site for Policyholders**

Boston, MA – ProMutual Group, the leading provider of medical malpractice insurance in the Northeast, has introduced a new web site for policyholders.

All policyholders will be receiving a letter within the next week announcing the site and providing each of them with their own individual username and password.

This site is designed to be an excellent source of medical malpractice and company information. A key feature of the site is the ability to link to online Continuing Medical Education (CME) programs developed by ProMutual Group and offered in conjunction with the Massachusetts Medical Society. ProMutual Group-insured physicians can receive CME credit by taking an online test at the same discounted rate offered to Massachusetts Medical Society members.

Among the site's many other features are an archive of past company publications and access to interactive forms for policy changes, reporting a claim, requesting risk management information, and requesting certificates of insurance.

"We see the site as a vehicle that will enable us to enhance the services we and our agents have traditionally offered in the past," said Michael Kubik, Vice President, Marketing.

"The major change is that policyholders will now have access 24 hours a day, seven days a week."

ProMutual Group provides medical professional liability insurance coverage to nearly 16,000 physicians, surgeons and dentists as well as hundreds of hospitals, health centers and clinics. The companies operate in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, Rhode Island and Vermont.
